Go beyond skin care.. with anti-ageing serums

Oxygen + Minerals | "C" Essence |  
Anti-Bacterial Cleansing | Anti Wrinkle |  
Youth Factor | Regenerating Rose Oil |  
Collagen | Skin Lightening

## Frequently Asked Questions

### Is the Oxy Pro Infusion suitable for me?

The Oxy Pro treatment is suitable for all skin types, and works best with people over 30 or those with mature skin because the skin's ability to retain oxygen diminishes with age. Ideal for oily, acne prone and problematic skin including dry skin as oxygen provides hydration

### How many treatments should I have?

Optimum results occur over a course of 6 treatments. One per week for 6 weeks. This is a minimum recommendation

### Will I see a result after my first treatment?

You will experience a visible result after your first treatment. Your skin will feel softer, look lighter and there will be a reduction of fine lines and a tightening effect

### Will the results last?

A one off treatment is beneficial for everyone. To optimise the results a series of treatments is recommended. Each treatment maximises, enhances and maintains the already useful benefits.
