Shape Changers' Range of Detox Wraps

PROVEN INSTANT INCH LOSS

Shape Changers' full body wrap survey results: 100 clients surveyed, ranging from 16 to 78 years, based on the average of 18 different measured areas of the body.

- All clients lost inches from their body
- Minimum inch loss 4.75 inches
- Maximum inch loss 22 inches
- Average inch loss 11.63 inches
- Greatest inch loss from thigh, mid thigh & abdomen

HOW IT WORKS

Shape Changers' range of detox wraps is made up of unique formulations containing special amino acids that promote extended inch loss benefits. To the formulations we have added aloe vera which helps tighten and tone the skin. When applied to the skin the wrap formulation draws toxins from the pores while keeping the skin healthy. The bandages compress the skin, pushing it back into place after the toxins are withdrawn resulting in safe, natural inch loss.

IMMEDIATE INCH LOSS

The Detox Wraps are not water loss wraps and the results are measured in inches and not weight, so there is no need to worry about dramatic weight fluctuations when you take on fluids. In fact, the more water you drink the better, prolonging the treatment to maximise results.

LONGER TERM DETOXIFYING

Problem areas can be retreated on a regular basis – please consult your salon - and inch loss will continue until the area has been completely detoxified. Depending on lifestyle, retoxification occurs naturally.
