

*How does the SPA AND ORGANIC MICRODERMABRASION™ system work?*

Dermabrasion is an age old treatment that has been adapted, modernised and made easier with the SPA AND ORGANIC MICRODERMABRASION™ system.

This improved method delivers a controlled, yet powerful stream of fine diamond crystals to the skin in order to slough off dead cells, leaving the skin smooth and fresh, while promoting new skin and collagen growth.

This program has been derived from the numerous experiences of international skincare experts and further adapted by medical physicians in Europe to meet today's skin and bodycare needs.

The SPA AND ORGANIC MICRODERMABRASION™ experience is the newest option between beauty therapy and cosmetic surgery.

- o Treatments can be individualised
- o There is no inconvenience
- o Results are seen immediately
- o No down time

SPA AND ORGANIC MICRODERMABRASION™ offer a wide choice to the patient who may be considering the more serious forms of skin peeling, (chemical, laser). With the SPA AND ORGANIC MICRODERMABRASION™ the erasure of the epidermal layers at varying depths is provided in a controlled manner with minimal trauma to the skin.

The Diamond Organic and Diamond Fusion Systems™ are the newest, most innovative systems in microdermabrasion technology. These unique systems are specially engineered to deliver an exciting, new proprietary blend of organic ingredients for microdermabrasion treatments.

- o Safe
- o No artificial ingredients
- o No harsh salts
- o Chemical-free
- o Completely Organic
- o No scratching

Diamond Organic Skin Resurfacing Grains™ offer a gentle polishing exfoliation, while still delivering the great results and micro-massage skin rejuvenation you want and expect from microdermabrasion.

Now you can treat the skin more frequently and increase benefits such as collagen rejuvenation, nourishing blood stimulation, and smooth skin surface renewal.

This is an extraordinary alternative for clients seeking an organic approach to microdermabrasion.
